

Row For Humanity

**Wednesday, February 17th
7AM-7PM**

We're all rowing for humanity on the same day.

The Nova Southeastern University Women's Rowing Team and supporters of Habitat for Humanity join forces to row a full twelve-hour erg-a-thon on indoor rowing machines.

On February 17th, College and High School Rowing teams across the nation (including Kansas State U, Tulsa U, Bucknell U, Boston U, George Washington U, Ithaca College, and more) will be erging together to help raise funds for their local chapters of Habitat for Humanity. By providing precious seed money participants help build homes for their communities while sharing the great sport of rowing with the university and community.

With your help we can make a difference!

NSU Women's Rowing will donate 10% of its revenue to Habitat for Humanity of Broward County!

*100% of proceeds brought in by Habitat staff will go directly to Habitat for Humanity *
